3. Who does what

When	What	Who
This week	Budget holders explain their variances in the variance sheet	Budget holders
This week	Clear the close checks and issue the pack as final	Financial Controller
Before the test date	Sign the covenant certificate and send it to the lender	CFO
Next close	Rerun with the new month; the run ledger shows any restated period	Finance team

4. How the files work together

- **Budget holders** write the reason and the action for each variance in the variance sheet. In the dashboard, choose *Load the updated file* and pick it to see what is still open; the file stays on your computer.
- The **covenant certificate** is signed by the authorised officer before it goes to the lender.
- The **presentation** has speaker notes on every slide, and its charts can be edited in PowerPoint.
- The **workbook** recalculates: choose a cost centre in the yellow cell of the Control panel.
- Editing the Excel and PowerPoint files needs Office, or a free tool such as Google Sheets and Slides. Reading them does not: both are inside `00_START_HERE`.

5. What we need for the next run

The trial balance, budget, bank balances, receivables ageing, headcount and volumes for the next month; the explanations from the variance sheet; any change to the covenant definitions.

6. Data and access

All client data will be deleted within 10 business days of the end of the engagement (or retained for the next run as agreed).
